 $\label{eq:continuous} \textbf{Field Data} \quad - \text{The Chrome User Experience Report does not have sufficient real-world speed data for this page.}$

Origin Summary — Over the previous 28-day collection period, the aggregate experience of all pages served from this origin does not pass the Core Web Vitals assessment. To view suggestions tailored to each page, analyze individual page URLs.

Values are estimated and may vary. The performance score is calculated directly from these metrics. See calculator.

 $\label{eq:continuities} - \text{These suggestions can help your page load faster. They don't \textit{directly affect the Performance score.}$
